

FREE Cell Phone Radiation Shield

[Reduce the Harmful Effects of Cell Phone Radiation by Up to 87%!](#)

Why You Need FreeShield

1. **Cell phones** and other wireless and electronic devices are **extremely useful**. Have you ever consider how you'd get by without your favorite device?
2. Cell phones also emit electromagnetic fields (**EMFs**) which can be [harmful to the human body](#). Strong evidence links regular cell phone use with anxiety, depression, infertility, brain damage, and even **cancer**.
3. EMF neutralizing technologies offer the **best of both worlds**—the convenience of modern technologies, while reducing their harmful effects.

Visit [FreeShield.com](#) for further information, including scientific research, case studies, videos and related links, as well as information about solutions.

How to Test FreeShield

Many ways exist to detect the effects of EMFs, including:

1. [SAR \(Standard Absorption Rate\)](#) testing is extremely expensive and only measures effects of radio frequencies.
2. [Infrared Testing](#) may be a more meaningful testing method, since cell phones emit radio *and* microwaves.
3. [Muscle Biofeedback](#) (or muscle testing) is a free EMF detection technology that uses the world's most sophisticated computing device, the human body for feedback. Muscle testing is so **simple to learn** and master that you'll move from student to teacher within minutes.

You'll **have fun** testing FreeShield with others. The looks of disbelief are priceless as your friends prove to be strong with FreeShield and weak without it. Expect skepticism until you've repeatedly demonstrated its effectiveness. And yes, **FreeShield even stands up in double-blind trials.**

Your friends will soon be thanking you for helping them shield themselves from the harmful effects of EMFs.

Watch a **FREE demonstration video** and find more information about EMF testing technologies at [FreeShield.com](#)

How Does FreeShield Work?

In order to validate FreeShield technology, there's obviously **a lot of explaining to do**. Therefore, we go into great detail on [our web site](#) clarifying how it works.

The short answer is that the intricate pattern in the design of FreeShield involves complex [geometry](#) and frequency equations. When Electromagnetic Fields (EMFs) pass through FreeShield, their vibrations are reprogrammed to become less harmful and more harmonious to your body.

How to Use FreeShield

1. **Print** all three pages of this file using the [best quality color printer and settings](#) you have available. Using scissors, **cut out the "FREESHIELD.COM" strip** below. Fold the strip into four, making a single FreeShield, which will make it four layers thick. *(This technology is more effective and provides more protection the more you use. Use more than four if desired.)*
2. **Insert FreeShield** on your cell phone either behind its protective case or behind the battery cover. FreeShield works regardless of whether its hidden or visible.
3. Replace the battery cover and enjoy your newly-shielded device. Try the cool tests found at [FreeShield.com](#) to put your skepticism to rest and **share this FREE technology with your friends!**

Pay it Forward

FreeShield is a humanitarian project, established by [Craig Brockie](#) with the intention of making a positive impact in the lives of as many people as possible.

Please "[Pay it Forward](#)" by sharing this technology. Thanks in advance for telling your friends about FreeShield on Facebook, by email and other means. In fact, the third page is a complete sheet of FreeShield strips you can use to **GIVE AWAY** and use to shield your cordless phones, pagers, alarm clocks and other electronic devices.

Thank you for making a difference by sharing FreeShield with your friends!

FREE Cell Phone Radiation Shield

Reduce the Harmful Effects of Cell Phone Radiation by Up to 87%!

What is FreeShield & How's it Work?

FreeShield uses an advanced geometrical design to generate a **full-spectrum vibration**. This full-spectrum vibration helps harmonize and **cancel out** the harmful effects of disruptive vibrations, such as those emitted by cell phones.

Thorough **mathematical research** has proven that not only do [different colors have unique frequencies](#), but the same is true of angles. By using a diverse combination of **colors and angles**, FreeShield achieves a very broad frequency range.

The Fascinating History of Geometry

FreeShield was developed through **research** into the intriguing field of geometry. Geometry and its related mathematical ratios are **fundamental** to many things we take for granted.

For instance, one of the most famous examples, the [golden ratio](#), is found in most living structures including your very own body, architecture, art, **music**, and even the world of finance.

The design in FreeShield resembles a fascinating geometrical design know as [The Flower of Life](#). There is a brilliant documentary out right now created by one of the heirs to the *Proctor and Gamble* fortune called, "[Thrive](#)" which shows (among many other things) how the Flower of Life design ties into almost everything.

Get the Whole Story...

To fully understand how important geometry is to universal design, watch Nassim Hamein in his breakthrough presentation, "[Crossing the Event Horizon](#)." Hamein explains the significance of geometry in a very entertaining and easy-to-understand way. He also presents a compelling and complete [unified field theory](#) (also know as the [theory of everything](#)) that fulfills a challenge that has eluded the greatest physicists, mathematicians & philosophers of recorded history. And yes, this is all based on geometry.

How Does it Work If I Can't See It?

One thing you might find curious is how FreeShield technology **works even when hidden** behind your cell phone battery cover, case or skin. To answer that question, we must realize that [what the human can eye see](#) is a very small fraction of the total light spectrum.

A good analogy to consider is that of a high-pitched canine whistle that dogs can hear clearly, but we cannot. Similarly, although you may have placed FreeShield **out of sight**, it's really only dark in terms of our perception. The vast majority of the [total light spectrum](#) is still interacting with FreeShield and its electromagnetic field (EMF) neutralizing effects.

What Else Do I Need to Know?

Some people are more sensitive to radiation than others. If you are currently free from obvious symptoms of **cell phone radiation** (headaches, excessive heat ear/face, red eyes, etc.) then a single application of FreeShield may be all you need.

People who are more **sensitive** to radiation may require several strips of FreeShield or may wish to use a complementary EMF-shielding technology as well. In this regard, you have **many options** available. [SARshield](#) is an excellent cell phone product that I use personally. Using more FreeShield technology may also prove helpful to you. [Click here](#) to download more free samples of FreeShield in various sizes that you can use around your home, at work or in the car.

There is good reason to also be concerned about the **cumulative affects** of the radiation you have already been exposed to. Fortunately, **there is hope**. Pick up a copy of the book, "[Clear Body, Clear Mind](#)" to learn how to eliminate the accumulated radiation from your body.

Enjoy Your FreeShield!

*Flourish and prosper,
[Craig Brockie](#), Founder*

P.S. Thanks for doing your part and remembering to '[Pay it Forward](#)'

FREE Cell Phone Radiation Shield

Reduce the Harmful Effects of Cell Phone Radiation by Up to 87%!

This page provides two great FreeShield sizes to fit almost any cell phone.

Please [Pay it Forward](#) by printing several copies of this page to share FreeShield with others!
